DYAVARASETTI ROHINI

Software Engineer

Email: drohini740@gmail.com | Phone: 9100660438 | Location: Telangana, India

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience in designing and developing scalable web applications. Proficient in React.js, Node.js, ASP.NET, SQL, and MS Excel. Strong expertise in full-stack development, database optimization, and Agile methodologies. Experienced in building enterprise applications including US Tax systems, OTT platforms, News Applications, and land/property management applications.

WORK EXPERIENCE

Software Engineer – Nayagara Technology (April 2026 – Present)

- Developed and enhanced the Amara Lands web application using React.js, Node.js, Express.js, and PostgreSQL.
- Implemented modules including authentication, property management, legal support, customer support, security monitoring, and admin functionality.
- Built and integrated REST APIs, database operations, JWT-based authentication, and role-based access control.
- Worked on frontend pages, backend controllers/routes, PostgreSQL database integration, and API testing.
- Collaborated on feature development, debugging, testing, and Git-based version control in an Agile environment.

Software Engineer – Arcanys (April 2025 – Present)

- Developed a full-stack News Application using React.js, Node.js, Express.js, and MongoDB.
- Implemented role-based access control for Admin, Editor, and Users.
- Designed and built features like breaking news, trending articles, and content approval workflows.
- Optimized backend APIs and database queries to improve performance and scalability.
- Collaborated with cross-functional teams in Agile environment for feature delivery.

Associate Software Engineer – GlobalLogic (June 2022 – September 2023)

- Developed and maintained enterprise applications using C#, ASP.NET, and SQL Server.
- Worked on Drake Software – US Tax Calculation Engine, handling complex business logic.
- Designed optimized SQL queries and stored procedures for better performance.
- Performed unit testing, debugging, and code refactoring to improve application quality.
- Collaborated in Agile teams for sprint planning and timely delivery.

Trainee – Stratosphere IT Services Pvt. Ltd (Aug 2021 – June 2022)

- Developed backend modules using C#, ASP.NET, and SQL Server.
- Supported OTT platform project (QAMless) with backend services and database integration.
- Performed debugging and refactoring to enhance performance.

PROJECT

Amara Lands – Land & Property Management Web Application

- Built a full-stack land and property management web application using React.js, Node.js, Express.js, and PostgreSQL.
- Implemented user authentication, JWT authorization, property registration and management, admin module, legal support, customer support, security monitoring, and related workflows.
- Developed REST APIs and PostgreSQL database operations for users, properties, verification, and application modules.
- Implemented role-based access and admin verification workflows to support secure property management.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript, HTML, CSS
Backend:	Node.js, Express.js, ASP.NET
Databases:	PostgreSQL, SQL Server, MySQL, MongoDB
Data & Reporting:	SQL, MS Excel
Tools:	Git, REST APIs, Postman
Methodologies:	Agile/Scrum

EDUCATION

B.Tech in Computer Science – Malla Reddy College of Engineering for Women (2016–2020)

CERTIFICATIONS

Certified Entry-Level Python Programmer
